### **Integrated Dropstitch V Hull**

A unique hull borrowed from our Search and Rescue Boats. This three-part Drop Stich Hull structurally creates a proper V-hull shape in line with the performance of an aluminum RIB.

### **Single Piece Aluminum Transom**

Our fully welded aluminum transom is engineered to last. Lighter, stronger and far more durable than wood transoms, this is key to keeping the FS Ultralight ultra-portable.

### **Safety and comfort go hand in hand**

The FS Ultralight features a high-vis wrap-around lifeline, fully adjustable seating, storage bags and more.
